La Minerve is authority for the statement that emigration of French-Canadians to the United States is very active just now. The record was made a few days ago when 120 second class passengers, including men, women and children, arrived at Bangor, Maine, from different sections of the province of Quebec. The conservative organ takes occasion to reproach the federal government for promoting the immigration of foreigners and neglecting to keep our own people here.

Advised received from Sano, capital of Yavut, Arabia, at Aden, says that fighting between Turks and revolting Jards continues and that the former are committing such atrocities that the inhabitants have sworn to fight to the last man. The unravelling of the Samson engagement is followed with interest in London, especially in colonial circles. German chauvinism, as far as her attitude is concerned, from the beginning of the trouble is regarded as incomprehensible. It is said it can only be explained by a desire on her part to get the upper hand in the islands. The Morning Post says that for no reason not yet explained Germany regards Samoa as an important link in her foreign policy. Rather than give up Samoa Germany would go to war. No doubt Germany has not forgotten what a prize Heligoland proved, and the German chancellor possibly anticipates a more important deal if he can only get possession of Samoa.

LORD AVONMORE has returned to his home in Ireland and an Irish exchange had an interview with him in regard to his experiences in a "Klondike." He said: "It all depends upon the class of people who go there. If people can rough it they are all right. For those who can't it's not the place." As regards the climate, he said it was much worse than had been described. "Any place," he observed, "with a temperature 75 degrees below zero must be bad." Where will you take it?

This question often arises after you have consulted the best (not the cheapest) physician you know, and have received his prescription.

It should go to the best druggist you know—one who will use only the right kind of drugs, and will not try to fill it if he hasn't the right kind.

It should go to the druggist who will exercise the greatest care in getting the right drug, and the right quantity, and will go over his work several times to be sure he is right.

We conduct our prescription business as the best druggist should, and that is an answer to the question, "Where will you take it?"

Geo. H. Graydon,

CHEMIST AND DRUGGIST.

Having obtained the services of a qualified druggist, you can depend upon having your prescriptions put up correctly at any hour of the day or night.

BELLROSE.

A hearty reception was tendered Mr. P. Bellrose on his return from Lesser Slave lake.

Our school was closed for Good Friday and Easter Monday, the usual Easter vacation.

In answer to our query of last week "What's the matter with the stage?" we may state that there's nothing the matter with the stage, it's all right. There has simply been an exchange of "mules" or a new mule has been added to the route, we're not sure which. This of course occasioned a short delay.

O. Bellrose has purchased a beautiful new Dominion organ. We think that it would be a splendid idea if some of our neighbors would follow suit. What is more refining and ennobling to the human mind than a course in music? and this we are sorry to say is greatly neglected in our neighborhood. We have noticed during our long residence in this country that the olive branches of parents, possessing cultivated tastes, grow up uncut and awkward, evidently because the higher faculties of their minds lie dormant, and should, we repeat, be awakened by a thorough course in music or some fine art.

A few of the elite of our village attended the dedication of the Patron Saint of the Esplanade ladies, held at the hamlet of St. Albert on March 17th. A goodly number of Hibernal sons and daughters and their descendants of "males" or a new mule has been added to the route, we're not sure which. This of course occasioned a short delay.

A few of the elite of our village attended the dedication of the Patron Saint of the Esplanade ladies, held at the hamlet of St. Albert on March 17th. A goodly number of Hibernal sons and daughters and their descendants of "males" or a new mule has been added to the route, we're not sure which. This of course occasioned a short delay.

O. Bellrose has purchased a beautiful new Dominion organ. We think that it would be a splendid idea if some of our neighbors would follow suit. What is more refining and ennobling to the human mind than a course in music? and this we are sorry to say is greatly neglected in our neighborhood. We have noticed during our long residence in this country that the olive branches of parents, possessing cultivated tastes, grow up uncut and awkward, evidently because the higher faculties of their minds lie dormant, and should, we repeat, be awakened by a thorough course in music or some fine art.

circulated among the people to receive cigars, after which it will be presented to Mr. Villeneuve, M. L. A., who, we feel confident will give the matter his closest attention at the present session. As the roads on either side of the river do not run parallel, to meet this difficulty Mr. Miles Kennedy will generously give the government a road through his farm, gratis. It was decided at this meeting to have a meeting of the ratemakers, with a view to settling these matters on Saturday, April 15th, at 2 p. m.
